Solyndra was staged to exploit indium and other related minerals from the same mining deal. Alas, the Afghan War failed, costing U.S. taxpayers (According to multiple news reports) over six trillion dollars, the Republicans found out about the “Cleantech Scam” and dissected it, almost all of the Cartel’s pool of exploitation companies went out of business, the Russian portions went into cold war mode with their U.S. counter-parts and leaks from Dept. of Energy staff broke the cover-up. Senior Federal employees participated in, coordinated and benefitted from the crime.

How many Afghan farmers, soldiers and workers had to die to buy John Doerr his new mansion?

Why did federal employees get the profits from helping do this crime?
